

AQUABRASS

AQUABRASS

TAMING THE BEAUTY OF WATER

aquabrace.com

WELCOME TO AQUABRASS

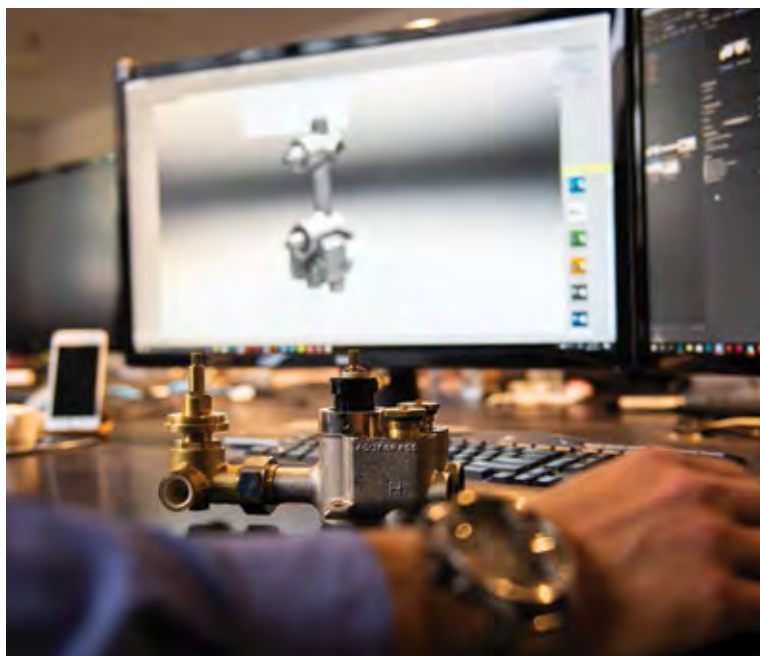

Behind our products, there are masterminds in design, craftsmanship, quality and trends. I dedicate this edition to our passionate people. The AB family.”

Antonio Masecchia, CEO

Aquab Brass, Urban Faucet Maker.

Born in Montreal and inspired by the city’s European flair and North American practicality, the Aquab Brass brand has gained the worldwide acclaim of designers and architects.

For over thirty years, our continued search for excellence in the field of high quality bathroom and kitchen faucets, shower fixtures and accessories has led to the creation of products that respond to our clients' quest for unique designs and finest materials.

Designed in-house, our TURBO thermostatic valve series is a judicious composition of the best-performing components available on the market and R&D expertise. Discover TURBO on page 241.

Our Montreal warehouse is equipped with automated vertical storage units, improving picking process and speed, as well as optimizing inventory space.

We take pride in utilizing high-tech manufacturing processes.

THE AQUABRASS TEAM: ONE COMMON OBJECTIVE

Our team is multidisciplinary and our work environment is collaborative. We have created a space where ideas flow freely and the designers are never too far from the technicians in order to ensure that the beauty of our products is equalled by their functionality and durability.

R&D team members finalizing the details of the MB2 collection. Discover MB2 on page 60.

Montreal communal office table, encouraging communication amongst staff and reinforcing the Aquabross team spirit.

CRAFTSMANSHIP: THE HUMAN TOUCH

Each part of every product is handled by expert artisans dedicated to producing an unequalled level of excellence at each step of the production process. Our production and assembly facilities have been optimized to allow those skilled hands to perform at their best.

Meticulous faucet assembly process.

Hand picking of a brushed gold plated rainhead.

Electroplating process.

FINISHES

The collection of Aquabraxs finishes proposes a number of sleek, stylish shades, carefully selected to offer you an array of options to fit with your bathroom and kitchen designs. From gold to copper, black to nickel and bronzes, there truly is a finish for every esthetic.

IN STOCK FINISH SELECTION

Polished Chrome (PC)
unlacquered
lifetime warranty

Brushed Nickel (BN)
lacquered
3 year warranty

Brushed Gold (BGD)
lacquered
3 year warranty

Electro Black (EBK)
lacquered
lifetime warranty

Brushed Nickel PVD (BNVD)
lifetime warranty

Brushed Gold PVD (BGVD)
lifetime warranty

Black (BK)
powder coat
3 year warranty

Polished Stainless Steel (PSS)
lifetime warranty

Brushed Stainless Steel (BSS)
lifetime warranty

CUSTOM FINISH SELECTION

Products featuring this icon are available in custom finishes, with a **10 weeks delivery lead-time**.
The warranty for custom finishes is three (3) years.

Gold - 500
unlacquered

Brushed Gold - 515
lacquered

British Gold - 535
mat lacquered

Rose Gold - 520
lacquered

Antique Brass - 435
lacquered

Montreal Black - 375
mat lacquered

Black Nickel - 270
unlacquered

Tuscan Bronze - 365
lacquered

Graphite - 255
mat lacquered

Brushed Chrome - 110
unlacquered

Brushed Nickel - 215
lacquered

Polished Nickel - 200
unlacquered

Antique Copper - 335
lacquered

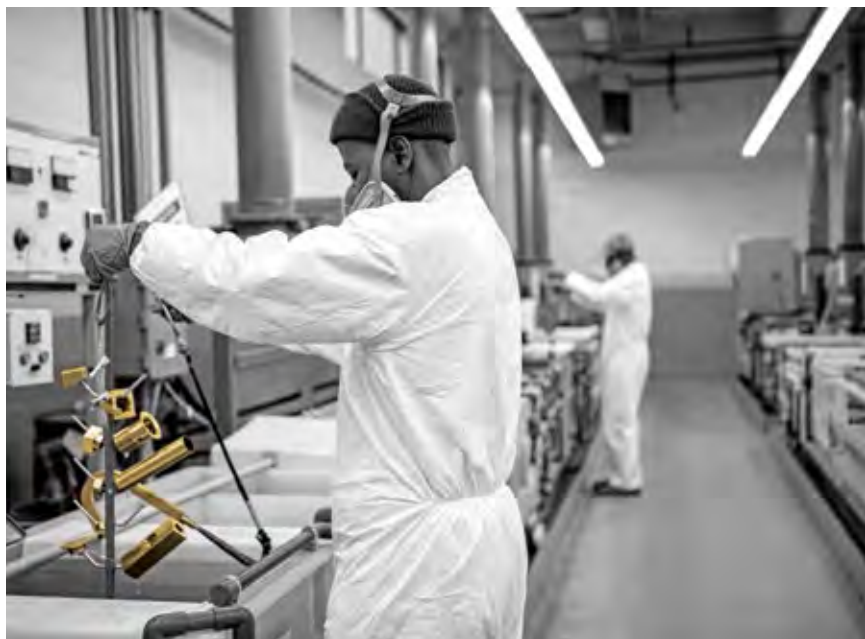

Antique Copper Dark - 345
lacquered

OUR COMMITMENT TO THE ENVIRONMENT

Our Montreal based state-of-the-art plating facility is the perfect blend of technology, artistic craftsmanship and a devoted commitment to the environment that exceeds North American ecological standards.

Our facility includes a government approved water treatment system that removes impurities and limits the amount of dissolved metals present in our wastewater. Impurities are transported by water and sent to our in-house water treatment system for their removal.

PROTECTING IS CARING

Aquabass products are carefully hand brushed/polished, followed by a custom electroplating finishing procedure.

As some metals, such as nickel, copper and brass, have a natural tendency to tarnish at ambient conditions, a high quality clear coat (lacquer) is applied on brushed surfaces to provide extra protection. Polished finishes such as Gold, Nickel Silver and Black Nickel maintain their properties over time if properly cared for, and therefore do not require any protective coat.

Custom plated fixtures are artisanal products that must be maintained and carefully cleaned on a regular basis to preserve their beauty. See page xix for the care and maintenance of finishes.

ICONOGRAPHY

BATHROOM FAUCETS TABS BAR

Timeless design collections

p. 2-59

Round shaped collections

p. 60-115

Squircle shaped collections

WARRANTY

Aquabross offers a lifetime warranty against defects in materials and workmanship under normal conditions of use, care and maintenance of the product(s), for as long as the original purchaser owns their home. The warranty applies only when the product is purchased from an authorized Aquabross dealer. It is not transferable and is limited to products sold and installed in Canada and the United States.

OUR WARRANTIES FOR RESIDENTIAL APPLICATIONS

- Limited lifetime warranty for ceramic disc cartridges.
- Five (5) year warranty for all other cartridges (thermostatic cartridges, diverters, check stop mechanisms etc.).
- Limited lifetime warranty for the polished chrome, electro black, stainless steel and PVD finishes.
- Three (3) year warranty for all other finishes.
- Two (2) year warranty for electronic faucets and components (batteries are not covered by our warranty).
- Five (5) year warranty for all other Aquabross product(s) and parts.

OUR WARRANTY FOR COMMERCIAL / INDUSTRIAL APPLICATIONS

- All Aquabross products and parts will be warranted for two (2) years.

OUR WARRANTY ON FINISHES

Polished chrome, electro black, stainless steel and PVD finishes carry a limited lifetime warranty against defects. All other Aquabross finishes are warranted for three (3) years. Finishes on drains are not covered by the warranty, nor the normal wear of any finish. Normal wear and tear is the expected decline in the condition of a product/finish due to normal everyday use. We highly recommend you carefully read the care and maintenance detailed instructions given on page xix of this catalogue, or visit our website aquabross.com/aquabross/finishes.

OUR COMMITMENT

We will repair or replace, free of charge, during the applicable warranty periods listed above, any product, part or finish that is proven defective in material and/or workmanship under normal installation, condition of use, care and maintenance of the product(s). Replacement parts for discontinued products will be made available, under warranty or not, until stock lasts. Under the period(s) of the warranty listed above, if the required replacement product, part or finish is no longer available, an equivalence will be recommended and provided, free of charge.

OUR WARRANTY EXCLUSIONS:

- Damage caused by inadequate installation, misuse, lack of care and maintenance of the product(s).
- Surface damage caused from using abrasive products, such as detergents.
- Corrosion resulting from exposition to chemically reactive products, such as Chlorine.
- Damage caused by hard water, calcareous deposits or sediments.
- Damage or loss occurred by a natural calamity such as fire, earthquake, flood, thunder, electrical storm.
- The installation of any Aquabross products by a non-accredited professional.
- Any labor or shipping charges, or damages whatsoever incurred in whole or in part from installation, removal, re-installation, repair or replacement of any Aquabross product or part, as well as any incidental or consequential damages, expenses, losses, direct or indirect, arising from any cause whatsoever.

OUR WARRANTY CLAIM PROCESS

To exercise our warranty, a proof of purchase – such as a copy of invoice - must be made available to our distribution center. Depending on the complexity of the defective product, an inspection can be required prior to approving the warranty claim.

North American Distribution Center (Canada & USA):

AD-WATERS
Technical Service Center
9805 Clark street
Montréal, Québec H3L 2R5

ABOUT

CARE & MAINTENANCE

Do not allow water residues to come into prolonged contact with the surface finish. After each use, gently dry the product surface with a clean soft cloth to prevent water-spotting and mineral build-up. Water stains and accumulation of minerals weaken the protective coating, eventually leading to peel off.

Clean the surface regularly using a pH neutral clear liquid soap, water and a soft cloth. Rinse away any traces of soap and gently dry with a soft clean cloth. Occasional application of Flitz Faucet Wax Plus is also recommended. The application of this wax based product leaves a protective layer that repels water, thereby providing extra protection against tarnishing.

Avoid abrasive and harsh cleaning products (detergents, caustic, acidic, antibacterial, ammonia- or bleach-containing products, organic solvents, lime scale and clog removers, brass and silver cleaners, etc.). The use of these products can damage the finish and will void the warranty. We recommend covering the fixture with a towel when using any of the listed products in order to prevent damage by splashing.

Residues left by personal products such as soap, toothpaste and shampoo can damage the finish. Always rinse these residues away with clean water and wipe dry.

Due to the characteristics of the Aquabross custom finishes and their appropriate maintenance durability dependency, the warranty for custom finish products is three (3) years. There are no returns on custom finish products.

OPTIONAL LOW FLOW AERATORS

Adjustments for specific restrictions can be made on most of our lavatory bathroom faucets in order to coordinate with regional flow rate allowances. A low flow restrictor is sold at \$10 per unit. Please contact your local Aquabross representative for additional details.

PRODUCT CERTIFICATION

Complying with North American plumbing standards and guaranteeing environmental products of the highest quality is our top priority.

Product specifications and pricing shown in this catalogue are subject to change without notice or obligation. Aquabross also reserves the right to change or discontinue certain models without notice or obligation. The visual representation of the products and finishes in this catalogue may differ from the actual items.

A photograph of a bathroom featuring black subway tiles with a raised, rectangular pattern. A white window with a silver frame is centered in the upper half of the image. To the right, a brass showerhead is mounted on the wall. In the lower right corner, a brass faucet and handles are visible above a white bathtub. The text 'À LA CARTE' is overlaid in the center in a large, white, sans-serif font.

À LA CARTE

THERMOSTATIC VALVES 3/4" - 1/2"

TURBO, AQUABRASS' NEW GENERATION OF THERMOSTATIC VALVES

SUPERIORITY IN CRAFTSMANSHIP AND POWER WITH
UNIVERSAL INLET CONNECTIONS - 3/4" AND 1/2"

Removable NPT plug at the top of the valve to connect an additional shut-off valve (#1206) or an independent diverter (#61934) with stop

Note: The TURBO valve #12004 doesn't offer this feature

Adaptable shut-off valves outlets for a connection on the right, left, or both sides simultaneously

Safe, reliable and precise thermostatic cartridge by French label Vernet, that includes a safety cut-off feature in the event of a cold water failure

Flow rate: 12gpm at 45psi /
15gpm at 75psi

Italian made nickel plated solid brass rough

Fed from beneath, the TURBO thermostatic valves are equipped with universal inlets for 3/4" and 1/2" connections

Built-in female thread for 3/4" connections and male threads for 1/2" connections

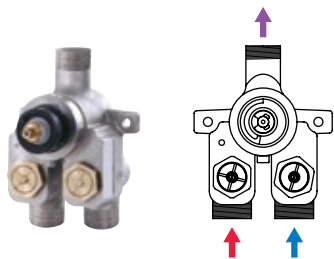

Reversible service check valves with filters and improved stop mechanism, allowing for an efficient and easy back to back installation

1/2" connection

3/4" connection

THERMOSTATIC VALVES 3/4" - 1/2"

T-12000 TURBO thermostatic valve

Rough **\$455**

- high flow thermostat cartridge
- universal inlets for 3/4" and 1/2" connections (built-in female threads for 1/2" connections and male threads for 3/4" connections)
- reversible service check valves with filters and improved stop mechanism
- italian made nickel plated solid brass rough and Vernet thermostatic cartridge
- **requires # 1206 shut-off valve or # 61934 independent diverter**

flow rate: 12 gpm at 45 psi

4 1/4" x 11" x 1/8"

- Polished Chrome **\$340**
- Brushed Nickel **\$445**
- Electro Black **\$595**
- Brushed Gold **\$595**
- Custom Finish **\$680**

THERMOSTATIC VALVES 3/4" - 1/2"

T-12002 TURBO thermostatic valve with 2 shut-off valve

Rough **\$795**

- high flow thermostat cartridge
- universal inlets for 3/4" and 1/2" connections (built-in female threads for 1/2" connections and male threads for 3/4" connections)
- reversible service check valves with filters and improved stop mechanism
- italian made nickel plated solid brass rough and Vernet thermostatic cartridge
- shut-off valve outlets: connections right, left or both sides simultaneously
- removable NPT plug at the top for an extra independent shut-off valve (# 1206) or diverter with stop (# 61934) connection

flow rate: 12 gpm at 45 psi

CARTRIDGES

-  ABCA12098 (x2) (shut-off / volume)
-  ABCA11042 (thermostat)

CHECK STOPS

-  ABSP12094 / HOT
-  ABSP12095 / COLD

EXTENSIONS

-  ABSPEXTHPC (x1 extension kit for thermostat)
-  ABSPEXVOL (x2 extension kit for shut off)

CHOICE OF TRIM SETS

(for optional handles, see p.252)

Cura #917

WELLNESS

Imagine stepping into your shower and enjoying an authentic spa experience, where you can uplift, unwind or simply get away.

When relaxation and well-being are the ultimate quest in a bathroom escape, the Cura rainheads series are an ideal destination for a mental and physical boost.

CHROMATHERAPY

Chromatherapy is an age-old form of healing that mixes color and light, recognized for its ability to improve one's mood and overall health.

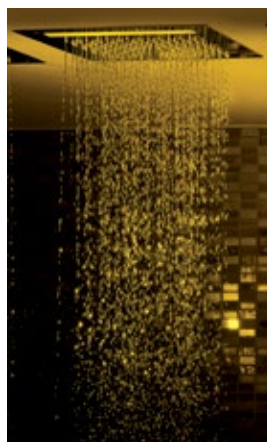

All Cura rainheads offer healing shades of green, red and blue – each one with its own therapeutic properties and intensity.

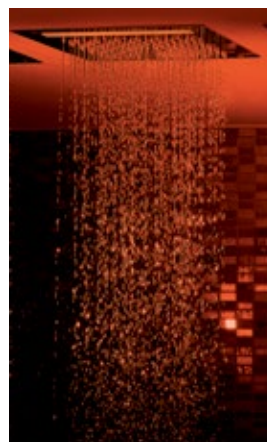

Blue
Relaxation
Tranquility

Energy

Purple
Imagination
Creativity

AROMATHERAPY

Described as a gentle treatment that uses aromatic plant extracts and essential oils, aromatherapy is a natural alternative that enhances well-being.

Cura rainheads #925 and #928 come with a wallmounted diffuser system and three unique fragrances.

 **FLORAL**

TICK ALL THE BOXES WITH

INABOX

ALL-IN-ONE SHOWER SOLUTION

INABOX

TICKING ALL THE BOXES

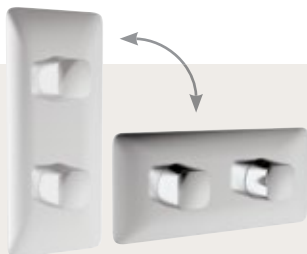

INABOX TICKS ALL THE BOXES TO PROVIDE THE MOST COMPLETE AND VERSATILE CONTEMPORARY THERMOSTATIC SHOWER SYSTEM IN ONE COMPACT DESIGNED BOX.

NO MORE COMPROMISE!
ALL THE OPTIONS TO BUILD A DREAM SHOWER FAUCET ARE INCLUDED WITH INABOX.

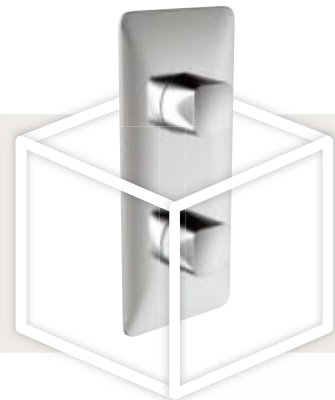

START WITH THE BEST ENGINE!

An Italian made thermostatic valve with a built-in diverter offering multiple configuration solutions for a 2- or 3- function shower - shared or not shared - with universal 3/4" and 1/2" connections (details p.250).

STYLISH VERSATILE TRIM SET

A modern and compact decorative trim set with easy clip-on fastening system and hidden 1^{3/8}" adjustment to fit any wall thickness. It can also accommodate a horizontal or vertical installation.

OVERSIZED RAINHEAD

The rain falling from the perfectly sized 14" x 8" rectangular rainhead submerges the body while not wasting water directly to the drain. With the included set of 2 arms, the rainhead can be installed on the ceiling or on the wall.

PUSH-BUTTON MULTI-FUNCTION HANDSHOWER

A handshower with an integrated ergonomic mode selector to experience 3 water flows: rain, massage and mist.

CHOICE OF HANDSHOWER SUPPORT

The handshower can be installed on a 24" rail or on a rotative hook, both included with INABOX.

ADJUSTABLE WATERWAY

The waterway has a 5/8" trim adjustment to elbow installation and an insulated casing.

For additional INABOX concepts, see pages 297 - 299

INABOX1

AVAILABLE Q1 2020

Included:
ceiling arm

INABOX-01 Shower faucet INABOX1

- thermostatic valve Uniplex 3/4" - 1/2" **sold separately**
