RUBINETTERIE
treemme
instruments for water

STORY

The story of Treemme begins in 1968, in the picturesque village of Asciano in Tuscany, a region known worldwide for its culinary wealth. Treemme, whose name literally means “Three Ms” in Italian, evokes the family name of the three founders Renato Michelangioli, Armando Medina and Guido Mencarelli. Three innovative young men who, 50 years ago, were able to stand out from the region’s agricultural tradition and establish a manufacturing company that is still thriving. Today, under the direction of Riccardo Michelangioli, son of Renato, Treemme is internationally recognized for its exceptional know-how, harmoniously combined with the latest in plumbing technology.

Having collaborated with several brands internationally since the 1980s, Treemme is now launching its own line, INOX, on the North American market. It consists of three collections made entirely of stainless steel of the highest quality, a material known for its durability and its many ecological benefits.

HISTORIQUE

L’aventure de Treemme débute en 1968, dans le pittoresque village d’Asciano en Toscane, région réputée mondialement pour sa richesse culinaire. Treemme, dont le nom signifie littéralement «trois m» en italien, évoque le nom de famille des trois fondateurs Renato Michelangioli, Armando Medina et Guido Mencarelli. Trois jeunes hommes de talent qui, il y a 50 ans, ont su se démarquer de la tradition agricole de la région pour fonder une entreprise manufacturière qui est toujours en plein essor. Aujourd’hui sous la direction de Riccardo Michelangioli, fils de l’un des fondateurs, Treemme est reconnue internationalement pour son savoir faire exceptionnel, habilement combiné à une technologie de pointe.

Ayant collaboré avec plusieurs marques à l’international depuis les années 80, Treemme lance aujourd’hui sa propre ligne, INOX, sur le marché nord-américain. Elle se compose de trois collections faites entièrement en acier inoxydable de la plus haute qualité, un matériau reconnu pour sa durabilité et ses nombreux avantages écologiques.

AWARDS

Thanks to their innovative products and avant-garde designers, Treemme has distinguished itself on the international scene by winning several prestigious awards over the years.

CERTIFICATIONS

Treemme products are known for their exceptional quality. They have obtained numerous certifications attesting their desire to offer quality products that meet rigorous standards.

CERTIFICATIONS

Les produits Treemme sont reconnus pour leur qualité exceptionnelle. Ils ont obtenu de nombreuses certifications qui attestent de la volonté de Treemme à offrir des produits de qualité répondant à des normes rigoureuses.

WARRANTY

All TREEMME products carry a full warranty against defects in materials and workmanship. The warranty will be applied only if the product is purchased from an authorized TREEMME dealer. The TREEMME warranty is limited strictly to the original consumer purchaser of the product. Proof of purchase must be made available to TREEMME for all limited warranty claims. Products that are deemed defective must be returned to our factory for inspection, in their original packaging, prior to replacement.

The limited warranty is not transferable and is limited to products sold and installed in Canada and the United States.

Residential Applications

- Mechanical working parts including ceramic disc cartridges for faucets, both pressure balance and thermostatic valves, thermostatic and diverter cartridges, shut-off and check valves etc., all carry our full limited lifetime warranty to the original purchaser.
- TREEMME stainless steel finish is warranted for the life of the product to the original purchaser. All other products and components are warranted for five (5) years, with the exception of:
- Electronic faucets and components – two years.

Commercial Industrial Applications

All the above product applications will be warranted for two years.

The TREEMME warranty does not cover:

- Damages resulting in whole or part from installation error, product abuse, misuse, neglect, improper maintenance, abrasives (detergents, window cleaner etc), corrosion and/or accidents whether caused or performed by a professional or anyone else;
- Normal wear and tear of the product and the finish;
- Damages caused by hard water, calcareous deposits or sediments;
- Damages or loss sustained in a natural calamity such as fire, earthquake, flood, thunder, electrical storm, etc.

TREEMME is not responsible for any labor or shipping charges, or damages whatsoever incurred in whole or in part from installation, removal, re-installation, repair or replacement of any TREEMME product or components, as well as any incidental or consequential damages, expenses, losses, direct or indirect, arising from any cause whatsoever.

To obtain warranty service, please contact your local AD WATERS customer care.

This warranty is extended to the first purchaser at retail. This warranty is NOT transferable.

TREEMME reserves the right to make product specification changes without notice or obligation and to change or discontinue certain models.

GARANTIE

Les produits TREEMME ont une garantie complète contre les défauts de matériel et de main d'œuvre. La garantie est applicable seulement si le produit est acheté chez un détaillant TREEMME dûment autorisé. La garantie TREEMME est strictement limitée au premier acheteur et une preuve d'achat doit être présentée pour toute inspection avant tout remplacement. Les produits considérés comme défectueux doivent être retournés à nos entrepôts pour inspection avant tout remplacement.

La garantie TREEMME n'est pas transférable et est limitée aux produits vendus et installés au Canada et aux États-Unis.

Applications résidentielles

- *Toutes les parties mécaniques incluant les cartouches à disques en céramique pour les valves et les pressions équilibrées, les cartouches thermostatiques, les déviateurs ont une garantie complète au premier acheteur.*
- *Le fini acier inoxydable TREEMME a une garantie à vie limitée au premier acheteur. Tous les autres produits et composantes ont une garantie de cinq (5) ans, à l'exception de:*
- *Robinets électroniques et composantes – deux (2) ans.*

Applications commerciales et industrielles

Tous les produits ci-dessus sont garantis pour deux (2) ans.

La garantie TREEMME ne couvre pas:

- *Dommages causés en entier ou en partie par une erreur d'installation, d'abus de produit, de négligence, d'utilisation non conforme, d'usage de produits abrasifs (détergents, nettoyeurs à vitres), de corrosion et/ou d'accidents causés par un professionnel ou par toute autre personne.*
- *Usure normale du produit et du fini.*
- *Dommages causés par l'eau dure, les dépôts de calcaire ou les sédiments.*
- *Les dommages ou les pertes résultant d'une catastrophe naturelle telle qu'un feu, un tremblement de terre, le tonnerre, un orage électrique, etc.*

TREEMME n'accepte aucune responsabilité pour tout frais de main d'œuvre ou d'expédition, ou pour tout autre dommage causé en totalité ou en partie lors de l'installation du produit, de son retrait, de sa réinstallation, de sa réparation, ou le remplacement de tout produit ou pièce TREEMME, ainsi que tout dommage occasionnel ou conséquent, dépense, perte directe ou indirecte, provenant de quelque cause que ce soit.

Pour obtenir la garantie de service, veuillez contacter le service à la clientèle local AD Waters.

Cette garantie s'applique au premier acheteur au détail et n'est PAS transférable.

TREEMME se réserve le droit de modifier des caractéristiques de ses produits sans avis ni obligation ainsi que de remplacer ou de retirer certains modèles.

textured handles
poignées texturées

The 22mm collection, revealing harmonious and timeless lines in the purest industrial style, was created respecting a diameter of 22mm for all the elements composing its faucets. This feature is made possible thanks to a new technology of miniaturization of technical parts. In addition, its textured handles ensure a good grip, but mostly conveys an authentic industrial character to this design.

La collection 22mm, révélant des lignes harmonieuses et intemporelles dans le plus pur style industriel, a été créée en respectant un diamètre de 22mm pour l'ensemble des éléments composant ses robinets. Cette caractéristique est rendue possible grâce à une nouvelle technologie de miniaturisation des pièces techniques. De plus, ses poignées texturées assurent une bonne prise et un caractère authentiquement industriel à ce design.

award-winning design
design primé

The 5mm collection, winner of the prestigious *Compasso d'oro* award, is the only faucet to have received such a distinction. Its particularity comes from the fact that the thickness of the faucet, 5mm, is constant in all the elements that compose it, from the spout to the levers. This technological feat is transposed into its absolutely unique ethereal design.

La collection 5mm, récipiendaire du prestigieux prix *Compasso d'oro*, est la seule robinetterie à avoir reçu une telle distinction. Sa particularité provient du fait que l'épaisseur du robinet, 5mm, est constante dans l'ensemble des éléments qui le compose, du bec aux leviers. Cette prouesse technologique se transpose dans son design éthéré absolument unique.

timeless practicality
fonctionnalité intemporelle

The 40mm collection, whose name evokes the diameter of the faucet body, was born from a desire to offer an extremely versatile faucet with classic shapes, whose design would be modernized by the use of stainless steel and purity of its lines. This desire has taken shape in this timeless collection, meeting the highest standards of quality.

La collection 40mm, dont le nom évoque le diamètre du corps du robinet, est née d'un désir d'offrir une robinetterie extrêmement versatile aux formes classiques, dont le design serait modernisé par l'utilisation de l'acier inoxydable et par la pureté de ses lignes. Cette volonté a pris forme dans cette collection intemporelle, répondant aux plus hauts standards de qualité.

Treemme faucets are crafted out of the highest grade of stainless steel available on the market today – grade 316.

This unique material is recognised internationally as one of the most hygienic surfaces since it has no pores or cracks to harbour dirt, grime or bacteria.

In addition, Stainless Steel is also the material of choice for green building throughout the world as it is 100% recyclable and its long life cycle reduces waste significantly.

The INOX collection will procure you with many years of enjoyment while taking part of a movement for conserving our planet.

La robinetterie Treemme est conçue à partir d'acier inoxydable de grade 316, la plus haute qualité disponible sur le marché.

Ce matériau unique est renommé internationalement comme étant l'une des surfaces les plus hygiéniques, n'ayant ni pores ni stries abritant les impuretés et les bactéries.

De plus, l'acier inoxydable est un matériau de choix pour la construction durable à travers le monde puisqu'il se recycle à 100% et que sa longévité permet de réduire considérablement les pertes.

La collection INOX vous comblera pendant de nombreuses années tout en étant en harmonie avec des pratiques durables pour notre planète.

Tremme is distributed exclusively in North America by:
